PROFESSIONAL SUMMARY

Full-Stack and Mobile Developer with experience in building modern web and mobile applications using React, Next.js, React Native, Node.js, Django, and TypeScript. Skilled in backend API development, database management (MongoDB, PostgreSQL, Supabase), and building scalable, user-friendly systems. Experienced in real-world projects and internships with strong teamwork, problem-solving, and software development skills.

EXPERIENCE

Software Developer Intern — RG Consult | Apr 2026 – May 2026

- Worked as Full-Stack Developer on the **Enjoy Rwanda platform**
- Improved business listing features and user interaction system
- Contributed to frontend and backend development
- Collaborated using Git and GitHub for version control

Full-Stack Developer — kLab Academy | Nov 2025 – Apr 2026

- Built **Event Konnect**, a full-stack event management system
- Developed event creation, registration, and user interaction features
- Worked in Agile team environment using modern development workflows
- Integrated APIs and databases for dynamic functionality

Frontend Development Trainee — SheCanCode Bootcamp | Sep 2025 – Mar 2026

- Learned HTML, CSS, JavaScript, React, TypeScript, and Next.js
- Built responsive UI components and frontend applications
- Developed **Greenex Waste Management System (Frontend)**
- Applied UI/UX best practices in real-world projects.

Full-Stack Web & Mobile Developer — University of Rwanda | Sep 2022 – Present

- Developed web and mobile applications using React, Next.js, React Native, Django, and TypeScript
- Built RESTful APIs using Node.js and Express.js
- Managed MongoDB and PostgreSQL databases
- Implemented authentication systems using Supabase
- Worked collaboratively using Git and GitHub

PROJECTS

Greenex Waste Collection Management System

- Developed a web-based system for waste collection and environmental services
- Built frontend using Next.js for performance and scalability
- Implemented scheduling, tracking, and service request features
- Integrated backend APIs for real-time system operations

Event Konnect (kLab Project)

- Built a full-stack event management platform for creating and managing events
- Includes event creation, registration, and user participation features
- Developed using modern web technologies with database integration
- Focused on usability and real-world event management needs

Enjoy Rwanda (RG Consult Project)

- Tourism and business listing platform promoting services in Rwanda
- Worked on both frontend and backend development
- Improved user experience and dynamic content display
- Enhanced business visibility and user engagement features

EDUCATION

BSc (Hons) in Information Technology — University of Rwanda | 2022 – 2026

A2 Certificate (Mathematics, Physics, Geography) — GS Ruhango Catholique | 2015 – 2021

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML, CSS

Mobile: React Native

Backend: Node.js, Express.js, Django

Databases: MongoDB, PostgreSQL, Supabase

Tools: Git, GitHub, Figma, Adobe Express, Canva, MS Office

LANGUAGES : English (Excellent), French (Good), Kinyarwanda (Native)

ACHIEVEMENTS

- Built multiple full-stack and mobile applications from concept to deployment.
- Contributed to real-world projects including Greenex, Event Konnect, and Enjoy Rwanda.
- Strong ability to integrate frontend, backend, and databases into scalable systems.
